CONTENTS
Volume 55 (1992)

Editorial — Recommendations of the DNA Commission of the International Society for Forensic Haemogenetics relating to the use of PCR-based polymorphisms 1–3

Ballistics inquiry on cartridge cases ejected from weapons with delayed blowback action 5–11
by C. Fatuzzo, A. Puglisi and G. Gentile (Catania, Italy)

New street analogs of phencyclidine 13–26
by B.A. Lodge, R. Duhaime, J. Zamecnik, P. MacMurray and R. Brousseau (Ottowa and Québec, Canada)

Detection of polymorphisms of human DNA after polymerase chain reaction by miniaturized SDS-PAGE 27–36
by F. Barros, M.V. Lareu and A. Carracedo (Santiago de Compostela, Spain)

Complement component C3a or C3a desArg as a new marker for estimation of local vital reactions in incised skin wounds 37–44
by Y. Maeno, Y. Mori, M. Iwasa, H. Inoue and F. Takabe (Nagoya, Japan)

Biostatistical basis of individualisation and segregation analysis using the multilocus DNA probe MZ 1.3: results of a collaborative study 45–58
by P.M. Schneider, R. Fimmers, J. Bertrams, P. Birkner, K. Braunbeck, U. Bulnheim, M. Feuerbach, L. Henke, E. Iten, E. Osterhaus, M. Prinz, E. Simeoni and C. Rittner (Mainz, Bonn, Essen, Duisburg, Rostock, Würsburg, Düsseldorf and Kiel, Germany; Bern, Switzerland)

HLA-DQA1 allele and genotype frequencies in a Northern Italian population 59–66
by F. De Stefano, L. Casarino, A. Mannucci, L. Delfino, M. Canale and G.B. Ferrara (Genoa, Italy)

Drug abuse in Western Denmark during the eighties. I. Drugs of abuse 67–74
by E. Kaa (Åarhus, Denmark)

Drug abuse in Western Denmark during the eighties. II. Fatal poisonings among drug abusers 75–82
by E. Kaa (Åarhus, Denmark)

Prevalence of HIV-1 antibodies in drug addicts autopsied at the University Institute of Forensic Pathology in Copenhagen 1988–1991 83–92
by B. Kringsholm and P. Theilade (Copenhagen, Denmark)

Women, homicide and alcohol in Cape Town, South Africa 93–99
by L.B. Lerer (Observatory, South Africa)

Diary of future events 101–103

An investigation into pellet dispersion ballistics..... 105–130
by N.K. Nag and P. Sinha (Calcutta, India)

The determination of enantiomeric composition of methamphetamine by ^{1}H-NMR spectroscopy 131–137
T.C. Kram and I.S. Lurie (McLean, VA)

Sem analysis of red blood cells in aged human bloodstains..... 139–159
by P. Hortolà (Barcelona, Spain)

A sensitive sandwich enzyme immunoassay for γ-seminoprotein and its application to sex discrimination of blood and bloodstains 161–172
by N. Yukawa, T. Kohno, E. Ishikawa and K. Takahama (Miyazaki, Japan)
Rapists' behaviour: a three aspect model as a basis for analysis and the identification of serial crime 173–194
by Anne Davies (London, UK)
Book Review 195–196
Diary of future events 197–199
Subject Index Volume 55 201–203
Author Index Volume 55 205
